

The Baldini group at UT Austin presents

PSI Lunch

with Prof.
Elaine Li

Physicists Supporting Inclusion

Conversations between
physics professionals and
underrepresented physics
undergraduates

Feb. 20th, 2023: 12-1pm

Prof. Elaine Li is a condensed matter experimentalist who has emerged as a leader in the field due to her work in 2D materials and optical spectroscopy. She received her Ph.D. from the University of Michigan in 2003, after which she worked as a postdoctoral fellow at JILA in Colorado. Prof. Li joined UT in 2007 and has since established a strong research effort with a diverse and talented group of undergraduate and graduate students. In the inaugural PSI Lunch, Prof. Li will talk about her career in physics and the path she has traveled to get here. During this informal discussion, all participants are welcome to share their own personal stories and perspectives.
