

The Baldini group at UT Austin presents

PSI Lunch

with Prof.
José Alvarado

Physicists Supporting Inclusion

Conversations between
physics professionals and
underrepresented physics
undergraduates

March 31st, 2023: 12-1pm

Prof. José Alvarado is a physics professor at UT Austin studying the mechanics of biological systems. He obtained his Ph.D from AMOLF and VU Amsterdam in 2013, and worked as a postdoctoral fellow at the Massachusetts Institute of Technology until he joined UT as an Assistant Professor in 2019. Since then, he has been active in mentoring students and diversity-related outreach activities, in addition to research. During this informal discussion, Prof. Alvarado will talk about his career path as it relates to the experiences of underrepresented physics undergraduates at UT Austin. All participants are welcome to share their own personal stories and perspectives.
